Bribie Island Environmental Protection Association

www.biepa.org

Caring for our special habitat
and its residents

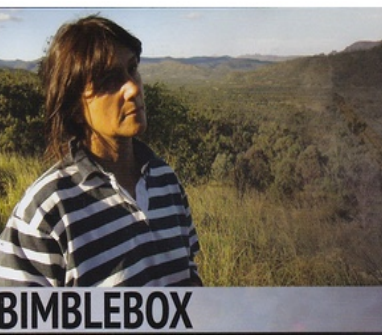

Next Meeting: June 26 @ 7pm
Anzac Room – RSL

Updates on discussions from previous
BIEPA meetings

Cane Toad Challenge: In January 2016, we heard from Professor Rob Capon and his research to develop a trap for toad tadpoles. The first field trial for his tadpole baits was held here on Bribie. We will look at the progress Rob has made in making his research available to all

Pope Francis' Encyclical on the Environment: In June 2016 we heard from Sr Mary Tinney on this subject. We will view the brief film "Care for our Common Home" which accompanied the original release of the Encyclical. This film has now been re-released

Bimblebox: Some time ago we watched the documentary film "Bimblebox" on the struggle by the The Bimblebox Alliance to establish and protect the 8000Ha Nature Conservancy in the Desert Uplands Bioregion of Central West Queensland. To update us on their

struggles, we will view the movie "Guarding the Galilee" on the impact the Adani coal project would have on the Conservancy
