

# BIEPA

*Caring for our special habitat and its residents*

## NEXT MEETING

7pm Monday, 27th November  
ANZAC Room, Bribie Island  
RSL

Final meeting for 2017  
End of Year celebration

## GUEST SPEAKER

**Dr Paul Maxwell**  
Principal Scientist  
Healthy land & water

The Healthy Land and Water Report Card provides an annual measure of the environmental pressures facing our catchments throughout South East Queensland. It provides an environmental condition grade (A-F) for each catchment and the level of ecosystem services (social and economic benefits) (1-5 stars) the waterways provide to local communities and what is being done to protect and improve them.

Dr Paul Maxwell is one of the key HL&W scientists responsible for this Report Card. He will give some background on how the Card is compiled and what the scores mean. He will outline the findings of the 2017 Card. The “environmental improvement” project, Bribie Island State High School students recently completed,

**will be acknowledged.**
